# ALL IN ONE BOX

## Pavers and Screeds

An Atlas Copco all-in-one kit brings you many benefits. Our kits feature selected quality parts that will make it quick and easy to overhaul your machines. To simplify things as much as possible, we have collected related parts to kits and put them in one box. This makes it easy for you to order your kit and receive it on time.

Using genuine parts ensures that your Atlas Copco product is maintained to factory specifications, minimizing operating costs. And best of all, a kit is much cheaper than buying the items individually.

# Maintenance kits
